## A Word About Dry Cleaning

There is a vast difference between methods and equipment of different concerns—Our dry cleaning is not a mere dry brushing, but is a thorough cleaning of every thread of the fabric by a solution and requires not only a positive knowledge of "how-to-do-it" but very efficient equipment to do it with.

## All Our Pressing Is Done by Hand

Every one who has given it a thought, knows that hand pressing is vastly superior to machine pressing. We could, as others have done, install pressing machines and could press more garments at smaller expense, but we could not keep up to the standard of excellence we have always maintained by doing so. We charge no more for hand work than others do for machine work.

If you want the best work at moderate cost, phone us and our man will call.

Express orders given prompt and careful attention.
